Objectives and investment policy

Investment Objective: The Sub-Fund is active, and the Fund aims to outperform the J.P. Morgan European Collateralised Loan Obligation Index AAA sub-set (€-CLOIE AAA).

There can be no guarantee that either objective will be achieved. The Sub-Fund's portfolio may deviate significantly from the benchmark but, in principle, the majority of the securities held in the Sub-Fund's portfolio are components of the benchmark.

Investment Approach: The Fund will invest at least 80% of its Net Asset Value in eligible CLOs of any maturity that are rated AAA (or equivalent by a nationally recognised ratings agency) at the time of purchase with a focus on European CLOs.

In case securities in the portfolio are downgraded below a rating of AAA (or equivalent), the Investment Manager will seek to sell the relevant securities as soon as reasonably possible, provided that it determines that it is in the best interests of investors

The Fund may invest up to 5% of its Net Asset Value in a single CLO security, 15% of its Net Asset Value in CLOs managed by an individual manager, 30% of its Net Asset Value in eligible non-European focused CLOs with non-Euro denominated; securities hedged back to Euro and 10% of its Net Asset Value in fixed rate securities that are hedged back to floating rate.

The Fund will not invest more than 10% of its Net Asset Value in Eligible Collective Investment Schemes. Derivatives may be used for the purposes of hedging/risk reduction specifically interest and foreign currency exchange rates.

For treasury management and/or defensive purposes (e.g. in case of unfavourable market conditions), the Fund may invest in cash and Money Market Instruments. The Fund's major part of currency exposure is hedged to base currency.

- The Share Class of the Sub-Fund will accumulate income in its value.
- This Sub-Fund may not be appropriate for short-term investment.
- The Share Class is denominated in EUR. The Sub-Fund is denominated in EUR.

- In normal conditions, Authorised Participants may deal in shares directly with the Sub-Fund. Other investors can deal in shares daily through an intermediary on stock exchanges on which the shares are traded.

For more information on the Share Class of the Sub-Fund, please see the supplement for the Sub-Fund and the prospectus of the SICAV, available on the product pages of tabulaim.com.

Risk and reward profile

Lower risk

Higher risk

Typically lower rewards

Typically higher rewards

This indicator is based on historical data and may not be a reliable indication of the future risk and reward profile of the Share Class.

The risk category shown is not guaranteed and may shift over time.

The lowest category (Category 1) does not mean 'risk free'.

The Share Class is rated 3 due to the nature of its investments and the frequency of price movement which include the following risks which may impact the value of the Share Class or expose it to losses.

- No capital protection: The value of your investment may go down as well as up and you may not get back the amount you invested.
- Liquidity risk: Lower liquidity means there are insufficient buyers or sellers to allow the Sub-Fund to sell or buy investments readily. Neither the Index provider nor the issuer make any representation or forecast on liquidity.

CLO Risk: The risks of investing in collateralized loan obligations (CLOs) include risks of the underlying loans combined with the risks associated with the CLO structure governing the priority of payments. These risks include, but are not limited to, the following:

Liquidity risk: CLOs might be subject to liquidity risk and infrequent trading of securities also may lead to an increase in their price volatility.

Interest Rate Risk: CLO securities with floating or variable interest rates can be less sensitive to interest rate changes than securities with fixed interest rates but may experience some decline in value if their interest rates do not rise as much, or as quickly, as interest rates in general.

CLO Credit Risk: CLOs carry credit risk, the primary source of credit risks is the ability of the underlying portfolio of loans to generate sufficient cash flow to pay investors on a full and timely basis. In stressed market environments it is possible that even AAA-rated CLO tranches could experience realised or mark to market losses

CLO Prepayment/Extension or Call Risk: Both the underlying loans and the CLOs can lead to prepayment, extension or call risk.

Dependence on Managers of CLOs risk: The performance of the Fund investment in CLOs will depend in part on the performance and operational effectiveness of the CLO managers.

For further information about these risks please consult the prospectus of the SICAV.

For more information on the risks to the Sub-Fund, please see the supplement for the Sub-Fund and the prospectus of the SICAV, available on the product pages of tabulaim.com.

Charges for this Share Class

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge: None*

Exit charge: None*

Charges taken from the Sub-Fund over a year

Ongoing charges: 0.35%

Charges taken from the Sub-Fund under certain specific conditions

Performance fee: None

For more information about charges, please see the section "Fees and Expenses" of the Sub-Fund's prospectus and supplement, which is available at tabulaim.com.

Ongoing charges have been calculated on the total of charges taken from the assets of the Sub-Fund over the course of a year, in accordance with the Sub-Fund's supplement. This figure may vary from year to year. It excludes portfolio transaction costs and taxes or duty charges for portfolio re-balancing, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking if any.

* Not applicable to secondary market investors. Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised Participants dealing directly with the Sub-Fund will pay the transaction costs related to their subscriptions and redemptions.

Past performance

- Past performance is not a reliable indicator of future returns.
- The sub-fund has not been launched.
- The share class has not been launched.
- Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

This chart has been left intentionally blank as there is less than one year's performance data.
