Objectives and investment policy

The Sub-Fund is passive and has the objective to track the performance of the ICE Gulf Cooperation Council Government Bond ex-144a Index.

- The Sub-Fund will seek to achieve its investment objective primarily through investment in a portfolio of USD denominated Sovereign fixed rate bonds and Sukuks issued by members of the GCC that, as far as practicable, reflects the composition of the Index.
- The Sub-Fund will use a sampling strategy and therefore may not hold every constituent of the Index and may not hold constituents in the same proportions as their weightings in the Index. When sampling is used, the Investment Manager will use industry standard tools that are readily available to all investment funds employing a sampling strategy.
- All index constituents must be constituents of the ICE Gulf Cooperation Council Government Bond ex-144a Index. The Index provides exposure to liquid USD-denominated sovereign fixed rate bonds which are rated investment grade or sub-investment grade and Sukuks issued by members of the GCC. The index applies a country cap weighting of 25% and a United Arab Emirates cap weighting of 25%.
